### **KS2** Mathematics Expected Standard

#### Name

Soon after your Easter holiday you will be sitting your end of KS2 tests. After all your hard work this year, we do not want you to forget all that work over the break!

If you do a little maths every day it will keep things fresh in your mind for when you come back to school. By using this pack, you will be using the key skills you have been rehearsing all year. It is called 10-4-10 '10 minutes for 10 days'.

Every day there are some arithmetic questions (no more than 5 minutes) and a couple of SATs style problems to solve (5-10 minutes). Complete one double page each day.

Try to do as much of the booklet as you can, remember it should take around 10 minutes each day. If you struggle with anything, make sure you ask your teacher when you return to school.

You do not need a calculator for any of these maths questions.

#### **Good luck!**

#### **DAY 1 – Reasoning Questions**

1. The numbers in this sequence increase by the same amount each time. *Write the two missing numbers.* 

- 2. Circle the number that is closest to 400.
  - 423 4001 382 444 143

1 mark

3. A box contains 170 pens. 6 children each take 4 pens. How many pens are left in the box?

4. Write the **missing numbers** in the multiplication grid.

	9	4		
Х				
	45		350	
5				
		24		1
6				
	27	12	210	1
3				
	1	1	1	2 mar

5. Here is a diagram for sorting numbers. Write **one number** in each box. One is done for you.

	Square number	<b>Not</b> a square number
Odd number	25	
Not an odd number

### **DAY 2 – Reasoning Questions**

1. Max jumped 2.25 metres on his second try at the long jump. This was 75 centimetres longer than on his first try. How far in metres did he jump on his first try?

\_\_\_\_\_(1 mark)

#### 2.

A packet contains 1.5 kilograms of guinea pig food. Remi feeds her guinea pig 30 grams of food each day.

How many days does the packet of food last?

\_\_\_\_ (2 marks)

**3.** A bottle holds 1 litre of lemonade. Rachel fills 5 glasses with lemonade. She puts 150 millilitres in each glass. How much lemonade is left in the bottle?

\_\_\_\_ (1 mark)

4. One gram of silver costs £26.79.

#### What is the cost of $\frac{1}{2}$ of a kilogram of silver?

#### 5.

This fence has three posts, equally spaced.

Each post is 15 centimetres wide. The length of the fence is 153 centimetres. Calculate the length of one gap between two posts.

### **DAY 3 – Reasoning Questions**

1. Write the two missing values to make these equivalent fractions correct.

(1 mark)

(1 mark)

2.

4.

Here is a pattern on a grid.

What percentage of the grid is shaded?

\_\_\_\_ (1 mark)

5.

Match each decimal number to its equivalent fraction. One has been done for you.

6. Write in the missing numbers.30% of 60 is30

30% of \_\_\_\_\_\_ is 60

(2 marks)

### **DAY 5 – Reasoning Questions**

1.

In class 6T there are 3 girls to every 2 boys. There are 21 girls in the class. How many boys are there?

\_\_\_\_ (1 mark)

(1 mark)

(1 mark)

4.

#### 2.

A cupcake recipe uses 2 eggs for every 250g of flour. How many eggs are needed for 1kg of flour?

3.

Use the rule below to fill in the empty boxes.

Double a number and add 3

49

Here is a sequence of patterns made from squares and circles.

The sequence continues in the same way. Calculate how many squares there will be in the pattern which has 25 circles.

5. and  $\bigcirc$  each stand for a different number.  $\square = 34$   $\square + \square = \bigcirc + \bigcirc + \square$ What is the value of  $\bigcirc$ ? (1 mark)

#### **DAY 8 – Reasoning Questions**

1.

Toby has ¾ of £160 and Paul has 3/8 of £240. How much more money does Toby have?

(1 mark)

#### 2.

Circle all the improper fractions that are equivalent to 4.

<u>12</u>	<u>48</u>	<u>30</u>	<u>16</u>	<u>4</u>
6	12	8	4	9

(1 mark)

#### 3.

Draw two lines to join the decimal with the equivalent fraction.

0.25	3⁄4	
0.34	1/5	
0.75	7/100	
0.7	40/100	
0.04	7/10	(1 mark)

4.

Use the symbol < > = to make this statement true.

25% of £300

15% of £400

(1 mark)

5.

Bobby and Sue are sharing a cake. Bobby wants to eat 25% of the cake. Sue wants to eat 2/5 of the cake. Sue thinks she will be eating the same amount as Bobby. Explain why Sue is wrong.

3			= 5	78,30	00 – 6	500

DAY 9 – Reasoning Questions	Complete the prime numbers:
1 Circle all the multiples of 8 listed below: 240 113 98 808 1800 (1 mark)	3 7 9 17 (1 mark)
2 Write <b>all</b> the common multiples of 5 and 9 that are <b>less than</b> <b>100</b> .	5 What is the lowest common multiple of 9 and 12? (1 mark)
	6. Write the number 6 less than 1 million.
(1 mark)	(1 mark)
3	
Tina is thinking of 2 square numbers. The difference between them is 11. When she adds them together the total is 61. What two square numbers is Tina thinking of? (1 mark)	

### **DAY 10 – Reasoning Questions**

1.

Complete the pattern to make the pattern symmetrical.

176490	167940	174609	169470	10740

largest

smallest (1 mark)

(1 mark)

3. Lloyd works for 165 days of the year. How long is this in weeks and days?

\_\_\_\_\_ (1 mark)

4. The table shows the temperature in different cities.

Temperature <sup>o</sup> C
7
-3
-9
0
-4
8
11

What is the difference in temperature between London and Cardiff?

```
_____ (1 mark)
```

The temperature in Birmingham increases by 14<sup>0</sup>C. What is the temperature in Birmingham now?

\_\_\_\_\_ (1 mark)

5. Polly has 5 bags of sweets. In each bag there are 21 sweets. She wants to share them equally between 6 people. How many sweets does each person get?

\_\_\_\_\_ (1 mark)
